

# STACY BENNER

A Work In Progress: [www.StacyBenner.com](http://www.StacyBenner.com)  
 stacybenner@yahoo.com • 503.910.5623

Getting back to basics ... as the in-house graphic designer for Yes Graphics Printing Company in Woodburn, Oregon. As a production graphic artist in the traditional print shop setting, I returned to my roots. Customer interaction and appreciation is commonplace for the local businesses we serve daily.

Customers are talking about us....

**It's true!**

What can I say? I wanted Data/Vision as soon as I got to know a couple of their employees and heard so many testimonials about them from other businesses in Woodburn. I like working with a local company because of the accountability factor. They are more likely to respond quickly and give top quality service because we are part of the same community. Our phone system and Internet are on Data/Vision's fiber optic network so we have super fast internet and reliable communications. I call them they answer the phone or call me right back. I experienced internet down time with my old communications company *the big guys*, but NOT ONE with Data/Vision. They are a big plus for Woodburn.
